FORWARD LOOKING STATEMENT

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements - written and oral – that we periodically make contain forward-looking statements that set out anticipated results based on the management’s plans and assumptions. We have tried wherever possible to identify such statements by using words such as ‘anticipate’, ‘estimate’, ‘expects’, ‘projects’, ‘intends’, ‘plans’, ‘believes’, and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in assumptions. The achievements of results are subject to risks, uncertainties, and even inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated, or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward looking statements, whether as a result of new information, future events or otherwise.

DEAR FRIENDS,

At SVA, we often talk at length about our unsurpassed growth strategy and how we are sustaining that growth momentum. But we seldom ask ourselves one simple, but fundamental question: 'Is there any deeper purpose behind this strategy? Any definite plan of which, multi-sectoral growth is just the outward expression or affirmation?' I would like to take this opportunity to answer this question unambiguously; so that you can understand our priorities better and see our road ahead clearer. From a very modest beginning, we have reached a stage in our corporate existence, when we cannot be just identified as a manufacturer of zinc oxide. We have not restricted our vision in the domain of zinc oxide or in trading of stocks and shares for that matter. We have reinforced our footprint in altogether new segment of tea and tea products, and even foraying into the hotels and retail sector of the Company's brand product "BASILUR TEA" and new brand product "AUSSEE OATS" at Sri Lanka with the main object to manufacture Oats and Muesli based food products for local and export market. The purpose is not just enhanced visibility, but to understand global market forces better and to create products and solutions that fulfill the needs of today and tomorrow in line with evolving socio-economic scenario. Effective innovation has always been our motto.

Although the sharp increase in prices of raw materials have dragged down the profits figures but it has not affected the Company's potential to keep on growing. In a post-recessionary global economy our deep-rooted belief that companies today must harmonize performance with social commitment — is resonating more than ever before. This has important implications for different stakeholders: for consumers and shareowners this translates into creating enhanced value, both economic and social, through trusted brands; for governments and the general public, it translates into responsibility. All businesses have a responsibility to the communities in which they operate, to the consumers they serve and to the planet whose resources they use.

ENVIRONMENT AND SOCIAL RESPONSIBILITY

Environment protection and social responsibility are deeply ingrained in our corporate credo. SLCL's concern for the environment is reflected in the following initiatives: in-campus greening; encouraging judicious use of natural resources; recycling; pollution control to ensure clean air and water; and reduction of landfill wastes. We have also Developed 30 acres of land for organic product development. We ensure healthy working environment and proper housing and medical facilities for our people. We adhere to strict lab our compliance to all working conditions and benefits as directed under Indian Labour laws.

PARTING THOUGHTS

At SVA, we believe what's right for society is right for business. It is a belief to which we are deeply committed. Businesses cannot create supreme value locally or globally without an underpinning of integrity and responsibility. We will continue to chart our future course of action based on this fundamental value system, seeking the encouragement and support of all stakeholders. Finally, I would like to put on record my sincere appreciation towards all the stakeholders, be it bankers, shareholders, customers, suppliers and the employees for the

continuing faith and confidence that they have reposed on us. We are confident that with their continued support, co-operation and guidance the Company will excel to achieve new landmarks in future.

Warm Regards,
Ms. Ranjana Gupta

MANAGEMENT DISCUSSION AND ANALYSIS REPORT**A.) Industry overview and Future Outlook**

The Company is concentrating to increase sale for its principals in Sri Lanka. The commodity prices which were down are expected to improve. The slump in the international market is also affecting our sale. In the coming years, the Company feels that the uncertainty in the global markets will go down and that it would create consumers to come back in to the market. In the Financial year 2015 - 2016, due to slump in the construction industry new projects are going slow and this has resulted in slump in sales of ceramics to the building industry. The other use for our product is rubber industry. Here also the rubber prices have been rising slowing down production of tyres. However with all these setbacks your company is slowly growing its market share. The Company has entered a joint venture with Future Enterprise Consumer Limited and has set up a company in Sri Lanka dealing with manufacturing production of Oats. Further, the Company along with Future Consumer Enterprise Limited floated a company in India for importing & exporting oats. The company expects to generate good amount of profit in the coming financial years.

B.) Risk and Risk Management:**1. Foreign Exchange**

The Company is exposed to risk from market fluctuations of Foreign Exchange. We try to minimize the risk of Foreign Exchange Fluctuation by entering into forward contracts immediately on booking the export orders.

2. Commodity Price Risk

To take care of commodities price risk, export orders are immediately tied up with suppliers for procurement. However this risk cannot be eliminated in case of imports because there is a time lag between the date of placing order and receiving delivery. Further, for the sake of economy, size of import contracts is too big to achieve back to back tie up with local buyers.

3. Risk elements in Business Transactions

The buyers and suppliers are selected after due diligence. Advance of 10-20% from overseas buyers, irrevocable letters of credit, payment at sight documents, ECGC cover, etc. are obtained, wherever considered necessary. As regards domestic trade delivery is released on receipt of full payment.

4. Physical risk to cargo

All our warehouses are adequately insured. For imports on CIF basis the supplier obtains insurance cover and for import on C & F basis insurance cover is obtained by the Company. For export shipments made on C & F basis, insurance is covered by the buyer and in case of orders on CIF basis, insurance is obtained by the Company. Warehouse to Warehouse insurance cover is obtained for domestic trade.

C.) Internal Controls and their adequacy

The Company has well structured internal control mechanisms and internal Audit is headed by senior executive which reviews all transactions independently on continuous basis. Internal Audit Department regularly briefs the management and necessary steps are taken wherever, necessary.

D.) Quality Control

The Company maintains high standards of quality. For exports before shipment and for imports on receipt of shipment the cargo is tested for quality by company's field staff, brokers 'representatives and by reputed quality testing equipments viz., moisture testing machine, electronic weight machines, scales, caliper and any other instruments to test various commodities. Services of recognized reputed laboratories are also hired whenever necessary. This has enabled the Company to earn reputation, attract and retain clients.

E.) Human Resource / Industrial Relations

The Company provides a challenging, open and satisfying work environment to its employees. Necessary steps are taken for boosting their motivation and active involvement in the organization. The Company also encourages its employees to continuously upgrade and improve their skills and qualifications.

F.) Material Financial and Commercial Transactions

There are no material financial and commercial transactions
